

## **Welcome to the World of Cosmetic Tattoo!**

You are about to enter an exciting new career in Cosmetic Tattooing. This business is all about helping people to look their best and often restore their self confidence. Some of the transformations are remarkable, and many happy clients have confirmed their gratitude by writing a testimonial.

For me there is nothing more satisfying than helping people to look their best. Sometimes it only needs a simple eyeliner, a lift of the eyebrow or adding definition with a lip line, to achieve incredible results. On other occasions correction or skin camouflage of facial or other areas is required.

Starting a new career is always exciting and of course you want to make sure that you have made the right decision to learn all about your new business.

Ella Boffa is the principal of the Cosmetic Tattoo Training Academy and will be your trainer. She has trained with the best technicians in Australia, New Zealand and the United States and has acquired extensive Cosmetic Tattoo knowledge and experience.

Ella's findings were that all trainers have their own styles and unique skills to offer. In combining her experiences with different trainers into her comprehensive training package, she is able to save her students valuable time and money.

You will practice techniques firstly on leather until competent and then on live models arranged by yourself or the Academy.

We look forward to having the opportunity to train you to become a professionally competent Cosmetic Tattoo Technician.

Yours sincerely

Ella Boffa  
Principal
